Dear Applicant,

Thank you for considering CORA'S Intergenerational Center! We welcome the opportunity to offer you or your loved one a cognitively stimulating intergenerational environment. Following is the process to apply to CORA'S Intergenerational Center to become a participant.

We like to start the process with a tour. We feel a tour enables you to briefly experience CORA'S home like environment. Once you have completed your tour, if you feel like CORA'S is right for you, we invite you to complete an application for enrollment and have the applicant medical information form filled out by your medical provider. The application for enrollment and medical information form are used to assist in the decision-making process for enrollment.

When both documents are returned, an intake assessment is scheduled with the Healthcare Coordinator. At the time of the assessment, a fee of \$100 is due. An intake assessment usually takes about 2 hours. Once all information is reviewed, a decision regarding enrollment will be made within five business days.

Once accepted you will be provided a welcome packet which will provide additional information that will be needed for the first day. Please keep in mind all applications are accepted and reviewed in the order received once all forms have been submitted.

Again, thank you for considering CORA'S Intergenerational Center. If you have questions, please feel free to contact me via email tcollins@friendshipcharlotte.org or at (704)-391-6682.

Blessings,

Tiketha L. Collins
